

# Get Instant Rebates on Energy-Efficient Ultra-Low Temperature Freezers

Did you know that some utilities have programs that offer rebates for making energy-efficient choices for your lab grade cold storage? Laboratories in select areas can receive up to \$2,000 toward each purchase of a Stirling Ultracold ENERGY STAR® Certified Ultra-Low Temperature (ULT) Freezer. These Instant Rebates are applied right to your invoice as a discount at time of purchase, without the need for any complicated paperwork or a long wait for reimbursement.

Ask your Stirling Ultracold representative about rebates on the VAULT100 Upright Ultra-Low Temperature Freezer in your area.
